

MATEUSZ SZYMONSKI

Senior Technical Artist, Computer Science Engineer

www.mattszymonski.com [@ mateusz.szymonski@gmail.com](mailto:mateusz.szymonski@gmail.com)
[@mattszymonski](#) [in Mateusz Szymoński](#) [mattszymonski](#) [mattszymonski](#) [HISTOR](#)

EXPERIENCE

Senior Technical Artist

CD PROJEKT RED

March 2026 – Present

- Architecting scalable world-building frameworks for AAA+ projects.
- Defining technical standards and best practices for production tooling.
- Evaluating and integrating new technologies across development pipelines.

Co-founder; Software Engineer

Sticky Piston Studios

December 2020 – Present

- Designing and developing full-stack web applications.
- Designing UX and UI for digital products.
- Building backend services, databases, and deployment infrastructure.
- Collaborated directly with clients on technical solutions.

Lead Maintainer; Software Engineer

Pill Engine (Open Source)

2023 – Present

- Leading the architecture and development of a modular data-oriented, performance-first game engine.
- Designing core systems including ECS, rendering, editor, scripting, hot-reloading, and asset pipelines.
- Coordinating open-source development through code reviews, Git workflows, and technical direction.
- Developing cross-platform support including desktop, WebAssembly, and ESP32 targets.
- Defining project branding, documentation, licensing strategy (dual licensing), and grant applications.

[project page]

EDUCATION

Bachelor of Computer Science

Warsaw University of Technology,
Faculty of Mathematics and Information
Science

October 2018 – February 2022

Houdini Fundamentals Course

Rebelway

August 2021 – December 2021

STRENGTHS

- General engineering
- Game development
- Game engine programming
- Rendering programming
- 3D art
- Leadership
- Software architecting
- Versatility
- Organization

SKILLS

Programming Languages

C# Rust C++ TypeScript
Python Bash/Shell GLSL/HLSL

Tools

Unity Unreal Engine Photoshop
Blender Houdini Substance Painter
Docker Git Helix Core Nginx
Jira Confluence Agentic coding AI

Libraries

Vulkan OpenGL React wgpu
ASP.NET WPF Vite

Other

HTML CSS Tailwind Linux
Agile Scrum LaTeX SQL UML
Vector Graphics Raspberry PI
Markdown

EXPERIENCE (CONTINUED)

Technical Artist

CD PROJEKT RED

📅 October 2022 – March 2026

- Developing advanced procedural generation systems for vast environments.
 - Establishing content production pipelines for AAA+ project teams.
 - Collaborating with engine, rendering, and content teams.
-

Junior Technical Artist

CD PROJEKT RED

📅 July 2021 – October 2022

- Developing internal tools automating asset production workflows.
 - Maintaining and improved existing production software.
 - Delivering engineering solutions for animation, VFX, and environment teams.
-

Vice President

Student Association of Game Developers "Polygon" (KNTG Polygon)

📅 September 2019 – February 2021

- Leading a student organization of over 100 members.
 - Organizing technical workshops, game jams, and community events.
 - Managing social media, designing advertising materials.
 - Handling necessary administrative tasks.
-

ACHIEVEMENTS

Data For City Hackathon 2023
3rd place

[\[more info\]](#)

HackYeah Game Jam 2022
1st place

[\[more info\]](#)

CG Boost Space Carrier Challenge 2020
1st place

[\[more info\]](#)

Unity 3D Inside the Vault: 3D Environment Art Contest 2019
3rd place

[\[more info\]](#)

Warsaw Film School Game Jam VI 2019
Honorable Mention

[\[more info\]](#)

PUBLICATIONS

- M. Lemiec, K. Malinowski, M. Szymoński, M. Ganzha and M. Paprzycki.
Agent-based modelling of car platooning for traffic optimization.
2021 4th International Symposium on Agents, Multi-Agent Systems and Robotics (ISAMSR), pp. 130-137, doi: 10.1109/ISAMSR53229.2021.9567855.
[\[more info\]](#)

EXTRA-CURRICULARS

- Over 30 3D art projects
(prop and environment art)
[\[portfolio\]](#)
- Volunteering as a mentor in Girls in the Game! program
[\[program website\]](#)

PROJECTS

Rapid PBR Material Creator

Python, Blender API

Addon for Blender that simplifies the creation of PBR materials to a single click. Top 20 most popular import-export addons on Blender Market, 5/5 rating.

- Designed and created whole product from start to end.
- Prepared video, screens, description and documentation.
- Maintaining and updating the product.
- Supporting customers.

[\[product page\]](#)

City Event Map

C#, JavaScript, Python, ASP.NET, React, MongoDB

Smart city platform designed to centralize and deliver real-time information about local events, public initiatives, and community activities - improving citizen engagement, urban communication, and accessibility to city services.

Mothman Rendering Engine

C++, OpenGL

Modern OpenGL rendering engine coded for learning purposes.

[\[project page\]](#)

Ad Astra

C#, Unity

Android video game, created and published on Google Play Store.

[\[project page\]](#)

PolyEngine

C++, OpenGL, Vulkan, CMake

Custom game engine made for learning purposes by a team of open-source enthusiasts.

- Consulting new ideas and development directions.
- Preparing new rendering engine in Vulkan.

OTHER EXPERIENCE

Game Jams and Hackathons Participant

Game Jams: PolyJam 2018/2019, Slavic 2018/2019/2025, Oh 2018/2019/2020/2022, HoloLens, Square 2019/2020, Warsaw Film School 2019/2020, Game Maker's Tool Kit 2019, Epic Mega Jam 2020, Red 2022, United with Ukraine 2022, Warsaw Pro 2022, HackYeah 2022/2023, Copernicus 2022

Hackathons: Hack2React 2023, Data For City 2023, Hackaday 2024

 January 2018 - Present

- Participating in 25 game jams and hackathons.
- Working in many different teams under the pressure of time.
- Developing a diverse range of projects using a wide array of technologies.
